Water Damage

Smoke/Fire Damage

Vandalism

24/7/365 Priority Response

Your home deserves the best. We can deliver it, starting with expert advice on how to immediately prevent more damage.

When fire, smoke or water unexpectedly damage your home, the first steps you take could mean the difference between a small cleanup and a more costly and time-consuming restoration.

Knowing when to call in a professional can also save you time in getting your life back to normal and money by preventing further damage to your home. ServiceMaster Restore® restoration professionals help return your home to normal as quickly as possible while restoring your peace of mind that the job was done right.

At ServiceMaster Restore, we understand the damage goes below the surface.

From our fast response to our proven expertise to our ongoing communication, we are committed to restoring your peace of mind. Follow these steps to help keep damage to a minimum, and call in the professionals you trust.

Follow these steps to help keep the damage to a minimum, and call in the professionals.

Water Damage

WHAT TO DO:

- Damage from water and bacteria growth can begin within hours. Call for professional help.
- Remove as much water as possible by mopping and blotting.
- Remove wet area rugs or other floor coverings not permanently attached. Do not attempt to start removing your wall-to-wall carpet.
- Lift draperies off the floor, loop through a coat hanger and place the hanger on the drapery rod.
- Wipe furniture, prop up wet furniture cushions for even drying and place aluminum foil under furniture legs.
- Move photos, paintings and art objects to a safe, dry location.
- Do not remove books from shelves. Instead, pack them tightly to prevent warping of pages until a restoration professional can begin this specialized drying.
- Open drawers, closets and cabinet doors to enhance drying.

WHAT NOT TO DO:

- ⚠ Do not enter a room with standing water until electricity has been turned off.
- ⚠ Do not use a regular household vacuum to remove water.
- ⚠ Do not lift tacked-down carpet without professional help.
- ⚠ Do not use electrical appliances while on wet carpet or flooring.
- ⚠ Do not disturb visible mold.

Water Damage

Smoke/Fire Damage

Vandalism

24/7/365 Priority Response

Smoke/Fire Damage

WHAT TO DO:

- Corrosive by-products can cause irreversible etching in as few as 72 hours. Call for professional help.
- If the temperature is above 60 degrees, air out the house to reduce smoke odor.
- Clean Formica, chrome, porcelain and aluminum fixtures to prevent permanent tarnishing or etching.
- Change the air filter on your furnace if it uses forced hot air.
- Tape damp cheesecloth over returns and supply registers to capture loose soot in the air.
- Discard any open food packages.
- If the electricity is off, clean out the refrigerator and leave doors propped open.
- Send clothing with heavy smoke damage to a qualified restoration dry cleaner.

WHAT NOT TO DO:

- ⚠ Do not touch anything with your bare hands. Oil from your hands can permeate upholstery, walls and woodwork, causing additional damage.
- ⚠ Do not wash walls. Incorrect cleaning could compound the soot residue.
- ⚠ Do not attempt to clean carpets or upholstered furniture.
- ⚠ Do not use electrical appliances until having them checked.
- ⚠ Do not use ceiling fixtures if the ceiling is wet.

Vandalism

WHAT TO DO:

- Fast action is required to prevent further damage. Call a restoration professional to remove damage caused by vandals.
- Make a list of all damage.
- Use a shop vacuum to remove glass particles from carpet and upholstery.
- Remove any debris from carpet or interior walls. Scrape or blot carpets and furniture—do not rub.
- Wash any egg or other residue from the building exterior using water.

WHAT NOT TO DO:

- ⚠ Do not use household cleaning products on fabrics, upholstery or carpets.
- ⚠ Do not attempt to remove chemical stains, including ink or paint.
- ⚠ Do not operate damaged electrical appliances.
